TEAMING.
The subscriber would respectfully inform his
friends and the public generally, that he con-
tinues to attend to teaming and will always
be found on hand at the New York and Providence
steamers, ready to convey goods to any
part of the city on reasonable terms.

He will also pack and move Pianos with the
utmost care.
All orders left at the office 133 Thames-st.,
or at his residence 35 Levin street, will be
promptly attended to.

Miscellaneous.
Dear Sir: I have just taken the agency
for the sale of Hardier and Huet's
Grecian Cast-iron Oil Polish, is now pre-
pared to furnish the article to store keepers
at Manufacturers' prices.

This article is composed of purest foot oil
and Gutter Percha, acting as a preserver of
brass as well as polish. An article of this
kind has long been needed, as every one
knows that common blacking will not polish
or oil over grease.

The attention of livery stable keepers, and
those keeping carriages and harnesses, is in-
vited to this article, as it is unsurpassed for
the purpose of cleaning carriage tops, harnesses,
&c. It is put up in large size boxes, con-
venient for the use of livery stable keepers,
and also smaller sizes for the use of every
body who wish to purchase the best blacking.

UNDER TAKERS.
Copies and other funeral appurte-
nances.—The subscribers have on hand
a complete and well selected stock of every
description of wood and finish; also robes,
trimmings, &c., and if desired they will
superintend funeral arrangements and furnish
all articles connected with and used on the
mournful occasions.

They have also a method of preserving a
corpse for any desirable length of time, until
friends and relatives can arrive from Europe
or distant parts of our own country.

It required they can give the best of refer-
ences as to their mode of attending to matters
of this kind.

Orders for the whole or part of these ar-
rangements are solicited, and will be prompt-
ly executed, with the utmost regard for the
feelings of those concerned.

NEW MAP OF NEWPORT.—The sub-
scriber has now nearly ready for publica-
tion an entirely new map of Newport Town-
ship, including a large part of Middletown.
Showing all the Island South of Coddington
Cove, and from Castle Hill on the West, to
Sachuest Point on the East. The whole made
from recent surveys hitherto unpublished.
It will be the only topographical map of the
Township yet made, and is of sufficient size
to allow the position of every house to be in-
dicated, and the names given of all the land
holders without the limits of the City.

The copy prepared for engraving, is now
ready for inspection and corrections, as it is
my wish to make it much nearer a correct map
than any yet issued.

The price \$5. The size about 36x44 inches.
Subscriptions will be received at 121 Thames
street by
CHAS. E. HAMMETT JR.

LADIES' DELIGHT!
RELIEF COME AT LAST.
WISNER'S Washing Machine, Pa-
tent Sept. 2nd, 1851, is a large tub
with zinc fitted on the bottom, also on the
underside of the rubber. It stands on a stool,
and weighs about 25 lbs; is simple and handy,
and has been thoroughly examined and tried
by thousands at the West without the least
year, who pronounce it to be the best labor
saver ever offered to the public. It has been
tested sufficiently long to prove that when
it has been used properly, it will tell a
better story for itself than I can communicate.
Give it a trial, and you will be entirely sat-
isfied of its superior merit.

THE HAMMONTON FARMER.—A new
paper devoted to Literature and Agriculture,
also setting forth full accounts of the
new settlement in Hammoniton, in Nova Jer-
sey, can be subscribed for only 25 cents per
annum.

Include postage stamps for the amount.
Address to Editor of the Farmer, Hammoniton,
P. O. Atlantic City, New Jersey. Please
wishing cheap land, of the best quality, in
one of the healthiest and most delightful
climates in the Union, and where crops are
never cut down by frosts, (the terrible scourge
of the north, see advertisement of Hammoniton
Farm.)

CITY STEAM BAKERY.
205 THAMES STREET.
Nearly opposite Kinsey's Express Office.

I wish to return my sincere thanks to my
numerous customers for their very liberal
support since carrying on the above business,
and assure them that nothing shall be want-
ing to merit their future favors. I have en-
gaged a first-rate French baker, direct from
Paris, in order to have French bread and
rolls of the genuine kind, likewise all other
kinds of bread of the best quality. Also a
great variety of cakes, pies, tarts, mac-
arons, and water crackers, butter and Boston
crackers, pie and pilot bread, of the best
quality and at the lowest price. Wholesale
and retail.

JOHN M. SWAN.
A Large lot of Thin Sole Gaiters, suitable
for hawthorn, or for wearing with
Rubbers, for sale by 55 Thames Street.
62 cents to \$1.20, at 55 Thames Street.

Miscellaneous.

AMERICAN AND FOREIGN PATENTS
R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Wash-
ington, under the Act of 1857.)
No. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards
of twenty years, continuing to secure Pa-
tents in the United States; also in Great
Britain, France and other foreign countries.
Carefully Specifying, Bounding, Assignments and
all Papers or Drawings for Patents, executed on
liberal terms, and with despatch. Research-
ing into American or Foreign works, to
determine the validity or utility of Patents or
inventions, and legal or other advice ren-
dered in all matters touching the same. Cop-
ies of the claims of any Patent furnished by
remitting One Dollar. Assignments recorded
at Washington.

This Agency is not only the largest in New
England, but through it inventors have ad-
vantages for securing patents, unobtainable
elsewhere. The patentability of inventions, un-
surpassed by any other agency, which can be
offered them elsewhere. The testimonials
below give proof of this. MORE SUCCESS-
FUL AT THE PATENT OFFICE
than the subscriber; and no SUCCESSFUL IS
THE BEST PROOF OF ADVANTAGES AND
ABILITY. He would add that he has
abundant reason to believe, and can prove
that at no other office of the kind are the
charges for professional services so moderate.
The immense practice of the subscriber dur-
ing twenty years past has enabled him to ac-
cumulate a vast collection of specifications and
official decisions relative to patents. Those
besides his extensive library of legal and me-
chanical works, and full acquaintance with
patents in the United States and Europe,
render him able, beyond question, to offer
superior facilities for obtaining patents.

All necessity of a journey to Washington
to procure a patent, and the usual great delay
there are hereby saved inventors.

TESTIMONIALS.
"I regard Mr. Eddy as one of the most in-
valuable and successful practical men with whom
I have had any intercourse."
CHAS. MASON, U. S. Commissioner of Patents.

"I have no hesitation in asserting that in-
ventions that they cannot employ a person more
competent and trustworthy, and more capable of
putting their applications in a form to secure
for them an early and successful consideration
at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. P. Eddy is made for me THIR-
TEEN applications on all sorts of new inven-
tions have been granted, and that one is
now pending. Such unmistakable proof of
great talent and ability on his part leads me
to recommend all inventors to apply to him
to procure their patents, as they may be sure
of having the most faithful attention be-
stowed on their cases, and at very reasonable
charges."

From Sept. 17th, 1857, to June 17th, 1858,
the subscriber, in course of his large practice,
made on twice rejected applications, SIX-
TEEN APPLS., EVERY ONE OF WHICH
"WAS GRANTED."
R. H. EDDY.

For Sale and to Rent.

THE BRISTOL FERRY HOTEL,
and Farm in Portsmouth, R. I.
The Hotel is arranged for about one hun-
dred boarders. There is on the premises
large stables, carriage-houses, ice-house,
pantries, &c., all in excellent order. The farm
contains over forty acres of good land with
plenty of sea-weed from the shore.
This place is one of the most delightful on
Narragansett Bay, easy of access, steam-
boats touching at the wharf several times
daily. For Boating, Fishing, and Bathing it
is unrivalled.

To a competent and reliable tenant the rent
will be moderate. Apply to
ALFRED SMITH.

FOR SALE.—A beautiful building lot of 3
1-2 acres situated on Halldell Hill in the
south part of the city, has a commanding
view of the ocean, city and harbor of Newport.
It is bounded on three sides by streets sixty feet
wide, on the North by the estate of W. H.
Jones Esq. of New York is near good build-
ing. While sold in lots to suit purchaser.

ough and durable manner.
Apply to
JAMES MAGUIRE, Broad-st.

OR SALE.—A second hand two-wheeled
covered carriage, but little worn, and
will be sold at a bargain, if applied for

and that she was coming to our rescue. He described her appearance and rig; and to our utter astonishment, when your vessel bore in sight she corresponded exactly to his description of her. We had not put much faith in what he said; yet still we hoped there might be something in it, for drawing men, you know will catch at straws. As it has turned out, I cannot doubt that it was all arranged, in some incomprehensible way, by an overruling Providence, so that we might be saved. To him be all thanks for his goodness to us."

"There is not a doubt," rejoined the other captain, "that the writing on the slate, let it have come there as it may, saved all your lives. I was steering at the time considerably south of west, and I altered my course to north-west, and I had a look-out aloft, to see what would come of it. But you say," he added, turning to the passenger, "that you did not dream of writing on a slate?"

"No, sir. I have no recollection whatever of doing so. I got the impression that the bark I saw in my dream was coming to rescue us; but how that impression came, I cannot tell. There is another very strange thing about it," he added. "Every thing here on board seems to me quite familiar; yet I am sure I was never in your vessel before. It is all a puzzle to me. What did your mate see?"

Thereupon Mr. Bruce related to them all the circumstances above detailed. The conclusion they finally arrived at was, that it was a special interposition of Providence to save them from what seemed a hopeless fate.

The above narrative was communicated to me by Captain J. S. Clarke, of the schooner Julia Hallock, who had it directly from Mr. Bruce himself. They sailed together for seven months, in the year 1836 and '37; so that Captain Clarke had it from the mate about eight years after the occurrence. He has since lost sight of him, and does not know whether he is yet alive. All that he has heard of him since they were shipmates, is, that he continued to trade to New Brunswick, that he became the master of the brig Comet, and that she was lost.

I asked Captain Clarke if he knew Bruce, well, and what sort of a man he was? "As truthful and straightforward a man," he replied, "as ever I met in all my life. We were as intimate as brothers; and two men can't be together, shut up for seventeen months in the same ship, without getting to know whether they can trust one another's word or not. He always spoke of the circumstances in terms of reverence, as of an event, and to another world. I'd stake my life upon it that he told me no lie."

The Daily News.

FRIDAY MORNING, FEB. 10, 1860.

Henry C. Carey.

The following is a communication received from a person, to whom we loaned, a few days since, two of Mr. Carey's works, expressing at the time the desire that we might receive for the benefit of our readers, the impression made upon our friend's mind by the perusal of the works mentioned. It is, perhaps, needless for us to say that we fully endorse our correspondent's views.—[Ed. News.]

MR. EDITOR:—Several days ago, I accepted from you the loan of two very ponderous books—two of Mr. Carey's works, expressing at the time the desire that we might receive for the benefit of our readers, the impression made upon our friend's mind by the perusal of the works mentioned. It is, perhaps, needless for us to say that we fully endorse our correspondent's views.—[Ed. News.]

These books are "SLAVE TRADE, DOMESTIC AND FOREIGN," and "PAST, PRESENT, AND FUTURE," by Henry C. Carey. The first mentioned, originally published in '53, and republished in '59. The last published in '59.

It is a great pity that all those who read and swallow with such avidity the whole and common-place slang of Helper's book, had not a substratum of solid food, like these books, to rest their effervescence upon. Such truths as it contains, (and it does a great many,) would then work no evil. Unfortunately, where one man will read these great and comprehensive arguments of a master-mind, in the demonstration of "the existence of a simple and beautiful law of nature, governing man in all his efforts for the maintenance and improvement of his condition—a law so powerful and universal that it escapes from it, is impossible."—fifty will greedily devour the "Impending Crisis" and endorse it word for word. To be sure their united opinion would be of but little value, except on account of their votes.

Other matters of present moment and pressing necessity, have interfered to deter me from the faithful perusal of works which require undivided attention and much and continuous thought. I would, however, earnestly advise your readers in

general, and in particular those who delight in "books that are books," to get these and read them without delay. Henry C. Carey has declined all invitations to attend the so called union meetings, and is yet deaf to the stirring and sweeping measures of the Ultraists of the Republican party, though undoubtedly many of the members of that party are influenced very beneficially by his sober and well directed philanthropy. He is too independent in his circumstances, and too massive in his sturdy adherence to well considered principles, to be moved from his dignified position, standing as he does by the "Constitution and the Union" without a platform except that of Washington, following "the things which make for peace," encompassed with "a cloud of witnesses" "not lost but gone before."

It, in the course of the perusal of these volumes, I shall find myself able to offer any suggestions to the News, or its readers, which shall at least have the merit of sincerity, upon the great cause of amelioration, which engrosses so many able minds at this time. These books are published by Henry Carey Baird, Philadelphia.

Yours, C. K.

LOCAL ITEMS.

MAYOR'S OFFICE, }
NEWPORT, February 7th, 1860. }
Gentlemen of the City Council:—

The 25th Section of the 74th Chapter of Title 14 of the Revised Statutes requires, that you shall, in the month of June, 1859, or before that time, and once in five years thereafter, provide for the great and salutary relief of the inhabitants of this City. As the Small Pox has prevailed quite extensively in the neighboring cities, I recommend, as a precautionary measure, that you contract with one or more of the physicians of the City, immediately, to vaccinate the inhabitants, in accordance with the requirements of the Statutes.

At the time the Hospital building on Coasters' Island was destroyed by fire, on the 8th of January, last, had there been a building on the east, the principal building which is occupied by the Poor, and also the barns, must almost inevitably have been destroyed; and probably by such a conflagration a number of the Poor must have perished, as the Asylum contains twenty-three insane persons, several of whom are almost helpless; some of them are very aged, and it is scarcely within the scope of possibility that all of the main building at any time less than half an hour before any of the Engines could reach the Island, even in the day—and during this period the building would be so completely enveloped in flames that it would be almost impossible to save it. A conflagration is terrible at all times, but it is vastly more so when it occurs in an asylum for the Poor, very many of whom are mentally and physically unable to escape from the danger which surrounds them in such a case. I, therefore, recommend you to cause the old Hercules Engine No. 7, with a suitable quantity of hose, to be placed at the Asylum. It is capable of doing good service, and would be very useful, as a means of saving.

There are able-bodied men enough at the Asylum to work the Engine until those from the City could reach the Island. On the 6th of July, 1859, the City Council passed a Resolution, directing the Committee on City Affairs, to ascertain what encumbrance, if any, had been made on the Powder House, and to report thereon. At a meeting of the Committee held on the 7th of September, 1859, the Committee reported, and recommended that the portion of the lot East of Clinton Avenue be sold; the Report was read, received and ordered to be placed on file; no further action has been taken in relation to the matter. As no income is derived by the City from this lot, which is bounded as follows:—on the north by the lot of the City, on the south by the lot of the City, on the east by the lot of the City, and on the west by the lot of the City, it is recommended that the portion of the lot East of Clinton Avenue be sold; the Report was read, received and ordered to be placed on file; no further action has been taken in relation to the matter.

A United States Marine Hospital at this port has long been needed. There is probably no other port in the United States, not provided with a Hospital, where so many vessels put in, and where so many persons are bound to Europe, if they have sickness on board, anchor in this harbor for the purpose of having the sick properly cared for; and also that the vessels may be thoroughly fumigated, and a clean bill of Health obtained. Quite often in winter disabled vessels, or those having broken boilers, call on board, some into our harbor for the purpose of landing their cargo, and others for the purpose of receiving medical treatment. During the months of July, August and September, the past two summers, a number of vessels, on board of which were sailors sick with the yellow fever, were at Quarens, and the timely accommodation (for them) was the barracks on Rose Island, which were temporarily fitted up by the City. This is the most accessible port in the harbor, and the reason why so many in distress seek refuge in our noble harbor. Yet we have no Hospital where these brave and hard-working men can be cared for during the time of their sickness; the most common feelings of humanity dictate that there should be a shelter for them, and if a proper effort is made, I am confident that an appropriation can be obtained from Congress for this most desirable and humane object. For several years certain sailors have been provided for by certain benevolent persons in the city, and at their hands have received every care and attention until their recovery or death. Every sailor pays his Hospital money regularly to the Government, and it is the legal and moral duty of the Federal Government to provide Hospitals for sailors, not as a charity but as a right due to the sailor, and a right which he daily pays for from his hard earnings. I recommend the passage of a Resolution requesting the Senators and Representatives in Congress from this State to use their influence to obtain an appropriation for the erection of a Marine Hospital on Rose Island, or some other suitable place in this harbor. I speak of Rose Island, because it is the property of the United States, and is admirably adapted for the purpose, being a very healthy location, and sufficiently distant from the City for all sanitary purposes.

The Revised Statutes and subsequent laws of the General Assembly authorize the State and of the Weights and Measures to furnish, on application, to the cities and towns of the State, at the expense of the State, standards of Weights and Measures. As the State sealer, Professor Alexis Carroll, of Brown University, is now prepared to furnish standards, I recommend you to cause application to be made to him for a set for this city.

Although the Jail in this city has been remodeled and, as many thought, put in thorough repair, and made perfectly secure, during the past summer, yet, the escape therefrom, last Thursday night, of John G. Short, a notorious, shrewd and desperate burglar and thief, clearly shows that the cells are not sufficiently strong to secure prisoners. I had several interviews with the Committee appointed by the General Assembly to make a report, previous to the commencement of operations, and urged that the walls of the cells should be of

an architect in Providence, and the work was directed according to those plans, under the direction of the Committee; they acted in good faith, and undoubtedly supposed that the cells were entirely safe, but any one can easily understand that it is not very difficult for a desperate man to pick out the mortar and remove the bricks of a wall, and make his escape, when it would be almost impossible for him to make an aperture through granite or iron sufficiently large for him to pass through. All the cells should be carefully examined every day, and by such a precaution prisoners would be much less likely to escape; this, however, is the duty of the State officers, as the City authorities have no control over the Jail, or the custody and discipline of its prisoners. I recommend that our Senator and Representatives in the General Assembly be requested to endeavor to obtain an appropriation, at the present session, for the purpose of making the walls of the cells of granite or iron, so that they may be reasonably secure. There has not been so many notorious and desperate men in our Jail, for many years, as at present; and it is the duty of the General Assembly to provide a safe place for the custody of these desperate violators of the law. It would not require a large amount of money to make it perfectly secure. Section 33 of Chapter 101 of Title 17 of the Revised Statutes requires that in the month of February, annually, you shall elect one or more surveyors and assessors of boards, planks, timber, joist and ceiling; it is therefore proper that you should this evening elect one or more such surveyors and assessors.

WILLIAM H. CRANSTON, Mayor.

By referring to our advertising columns, it will be seen that the Philharmonic Society have decided to give the first concert of the course, next Thursday evening. All persons who intend to avail themselves of the reduction in price favoring course tickets, should do so immediately. The programme will appear Saturday morning.

GENERAL ASSEMBLY.

JANUARY SESSION—IN PROVIDENCE.

WEDNESDAY MORNING, Feb. 8.

Senate.

The Governor presented the petition of Chapman for release from New-
port county jail, where he is imprisoned for selling liquor. Petition was granted and a resolution advising and consenting to his release was adopted.

Mr. Greene, from the Committee on Finance, reported back the petition of Woonsocket. Guards for an appropriation of \$322.05. On recommendation of the Committee the Senate concurred with the House in granting the petition.

House of Representatives.

The House met at 11 o'clock, Mr. Speaker Hayes in the chair.

Mr. Hartwell presented the petition of the Second Freetown Baptist Church of New Shoreham for change of name, which was received and referred to the Committee on Education.

Mr. Hubbard moved that the special committee on the Ives vs. Armstrong case be instructed forthwith.

Mr. Van Zandt explained that the committee could not report before Friday morning next.

Upon motion of Mr. Northup, the motion was so amended as to require the committee to report on Friday next, and then adopted.

Mr. Wilson, from the Committee on the Woman's Rights Convention, asking for the expungement of the word "male" from the Constitution, &c., the question being upon adopting the report of the Committee on Education that petitioners have leave to withdraw.

Mr. Diman desired to know the reason for such a recommendation.

Mr. Watson, of Newport, remarked that he did not deem any legislation necessary at this time.

Mr. Hartwell said that in the present position of political parties in this State, it seemed to the Committee that it would be injurious to extend to women the right to enter the lists. It was feared that they might become restive under the domination of King Caucus, and bolt regular nominations, at a time when the interests of the commonwealth demanded harmonious action. It had been suggested, moreover, that if the ladies were to be at once admitted to the right of suffrage, the gallant young bachelor recently placed in nomination for the gubernatorial chair might be induced to withdraw his letter to the Evening Press, and thus complicate matters still further. The Committee therefore recommended that the petitioners have leave to withdraw.

Mr. Hubbard moved that the memorial be referred to a committee of old bachelors, comprising Messrs. Luther, Van Zandt and Sanford. Ruled out of order.

Mr. Luther indignantly—The gentleman never knew an old bachelor.

The question was taken, and petitioners had leave to withdraw—yeas 27, nays 10.

Mr. Baker, from the joint special committee on a suitable location for a House of Correction, presented a report, setting forth that the committee had considered seven locations. One location, known as "Hog Island," in the town of Scituate, was too far inland to entitle it to consideration. Another, the Field's Point farm, could not be obtained of the city of Providence. Another, the island of Patience, containing two hundred acres, could be had for \$10,000, but was claimed to be inaccessible and too near the island of Providence.

Another, on the island of Prudence, near Sandy Point, was deemed unsuitable. Another, Kettle Point, being within the jurisdiction of Massachusetts, could not be entertained. The title to another, a tract of land near the State Prison in Providence, was still in doubt. The committee therefore recommended the adoption of Hog Island, near Bristol Ferry, a part of the town of Portsmouth. This island contains about two hundred acres, comprising a good stone quarry, fertile soil, excellent wells of water, and a seaweed privilege, perhaps the most valuable in the State. This island can be purchased for \$15,000, payable in bonds of the State bearing six per cent. interest, to be liquidated in fifteen years. The committee therefore recommended the adoption of the following resolutions:

Resolved, That the special committee on the location of the House of Correction, appointed at the present session, be and they are hereby authorized and empowered to purchase the island in Narragansett Bay, known as "Hog Island," together with the buildings thereon, for a sum not exceeding five hundred dollars, payable in fifteen consecutive years, with interest on the same at six per cent., payable annually.

Resolved, That the said committee be authorized to bring in to this General Assembly such bills and resolutions as are necessary to carry into effect and perfect the recommendations of the said committee.

of the joint select committee on this subject, appointed at the January session, A. D. 1859, as also the recommendation of the joint select committee named in the above resolution.

Upon motion of Mr. Van Zandt, the report was made, the special order for tomorrow at 11 o'clock.

Mr. Sanford called up the bill for the abolition of colored schools, and

Mr. Van Zandt resumed his speech in opposition to the bill. He claimed that the present system was broadly, wholly and substantially constitutional, and denounced the movement to overturn it as an attempt to abolish the Republican party. He urged the members to hesitate before they baptized this child of abolition, and adopted it into their political creed. He alluded to the exclusion of colored citizens from the jury box, from public offices of trust and honor, and from bonds of matrimony with persons of the white race, and inquired, where the barrier, if now molested, should again be planted. Mr. Van Zandt closed with a powerful appeal to members from the country not to interfere with the cities in any matter of internal policy.

Mr. Jencks thought the substitute would have but one effect—to defeat the bill.

The following communication was presented, read and referred to the joint special committee on the boundary question:

To the Hon. Senate and House of Representatives of the State of Rhode Island.

I have the honor to transmit to each branch of the Legislature of Rhode Island an abstract of the proceedings of a public meeting of citizens of Pawtucket, in the State of Massachusetts, convened in the Town Hall, on Monday evening, Feb. 6th, 1860, pursuant to public notice, to consider the new boundary line proposed by the State, in the suit now pending between the States of Rhode Island and Massachusetts.

Hon. Abner Bliss was appointed Moderator, and William Tyler was appointed Secretary.

It was resolved, that in the judgment of the meeting, the proposed new boundary line is arbitrary, unnatural and inconvenient, drawn without reference to the interests or wishes of the people who are affected thereby, and dictated by individual and local interests. The meeting resolved, also, to use all honorable means within their power to prevent the ratification and adoption of said proposed boundary line, and would prefer, unless a better one can be obtained, to leave the controversy to be settled by the court.

It was voted, to request the Selection of the town to call a legal town meeting to consider this subject.

It was voted, also, that the Secretary transmit an account of the proceedings of the meeting held this evening to both branches of the Legislature of Rhode Island, and to the Governor and Council of Massachusetts.

WILLIAM TYLER, Sec'y.

Pawtucket, Feb. 6th, 1860.

After an ineffectual attempt by Mr. Materson to have an afternoon session, the House adjourned until to-morrow morning at 10 o'clock.

THIRTY-SIXTH CONGRESS.

FIRST SESSION.

WASHINGTON, Feb. 7.

SENATE.

The joint resolution, passed on the last day of the last session, appropriating money for the removal of the bar and obstructions at the mouth of the Mississippi was returned by the President, with a veto, and the bill was returned to the same. \$6,000 for the relief of Commodore Harbison, and authorizing Commodore Harbison to accept a sword from Urquiza. Mr. Wilson (Rep., Mass.) introduced a resolution to appoint a committee to inquire into the extent of the power and patronage of the President and Heads of Departments respecting removal from and appointment to office, and also whether any power or patronage is used to influence the legislation of Congress, or elections, &c. The Post Office Deficiency bill which was reported with amendments, was taken up. After some debate the further consideration of the bill was postponed, when the Senate went into executive session, and afterward adjourned.

HOUSE.

Not in session.

Died.

In this city, on the 8th inst., George W. Cole, Esq., in the 75th year of his age. Relations and friends of the family are invited to attend his funeral, on Saturday, Feb. 11, at 3 o'clock, P. M., from the residence of his son-in-law, No. 11 Dull Street, without further notice.

NEW Marine Journal.

PORT OF NEWPORT.

MISCELLANEOUS.

Arrived at Wilmington, N. C., 1st inst., brig S. P. Brown, Townsend, Gardenus.

Special Notices.

COAL.

Special Notices.

FOUSEL'S PABU UM VITE.

THE GREAT FRENCH REMEDY.

DR. F. J. LAFORME, Esq.,

possesses extraordinary

properties for the speedy and permanent

cure of CONSUMPTION, BRONCHITIS, COUGHS,

Colics, and ALL PULMONARY DISEASES.

This celebrated specific is now universally

acknowledged to be infinitely superior to all

other preparations for the cure of Pulmonary

Disease, both from its innocent nature and

its most astonishing curative properties; it

being the only remedy known that will arrest

the development of Tubercles in the Lungs,

or restore the vital functions of the pulmonary

organs to their normal condition. Its invalu-

able properties have obtained for it the most

recommending testimonials and chemists of

the most eminent physicians and chemists of

the continent, while the best and surest

proof of its merits are afforded by the nu-

merous testimonials of its great efficacy in

conquering disease, which are constantly re-

ceived from our most respectable citizens.

Invaluable in all stages of pulmonary disease

should not fail to give it a trial, as it can be

administered to the most delicate and feeble

with perfect safety and certain relief; and we

herewith insert a few testimonials for their

encouragement, selected from hundreds of

like import.

Certificates of Dr. A. HAYES, in reference

to the celebrated virtues of this great discovery.

This preparation, by chemical analysis,

was proved to be free from opium or any of

its compounds; nor were any of the metallic

or mineral substances, but consists wholly of

volatile, diffusible agents, which afford vapors

freely at a moderate temperature. Most of

the substances present are officinally used in

alleviating pulmonary disease; but the de-

gree by which they are combined is new and

original, and adapts the compound to inhalation,

or other modes of administration.

Respectfully,

DANIEL H. GORRIS,

To F. J. LAFORME, Room 12, City Hall.

F. J. LAFORME, Esq.,

Dear Sir—This may certify that I have

used Fousel's Pabum Vite, and I consider

it the best remedy that I have ever used for

pulmonary complaints. My wife has used it

for severe colds, and its effect was magical;

and I have no objection to your referring in

any way to me that you deem expedient.

I have given the above named a fair trial,

and with confidence advise all that are afflicted

with colds or pulmonary complaints to try it.

FRED. F. LAMAR,

Surgical Instrument Manufacturer.

It is sold at the low price of 50 cents, and

\$1.00 per bottle, thus placing it within the

reach of all classes. F. J. LAFORME, sole

Agent, Boston, Mass. M. S. BURRILL & CO.,

General Agents, No. 26 Tremont Street, Mus-

seum Building, Boston, and for sale by all

druggists. Circulars with testimonials of its

efficacy can be had of R. J. TAYLOR, Agent,

No. 104 Thayer Street, Newport, R. I.

The above is also for sale by CASWELL,

MACK & CO., 132 Thames street.
